## ClassRoom Money Token White Paper

## ClassRoom Money

## What is Classroom Money (CRM)?

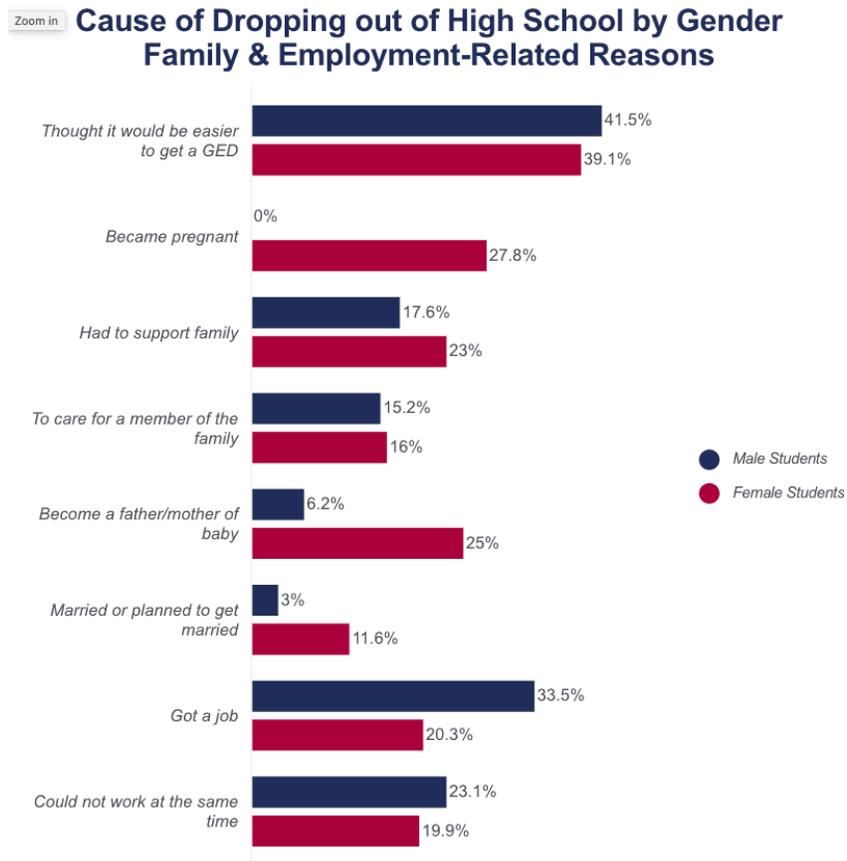

Classroom Money is an incentive program which allows every child to get an equal chance to continue its education. Classroom Money is here to help US children to achieve their educational goals.

- We aim to provide them with a safe and welcoming environment to explore and fully flourish their abilities.
- Our goal is, help every child to learn and achieve to their maximum potential. And become an independent, productive, and responsible part of society.

For the achievements of our goals, we are creating a cryptocurrency which is here to create affluence for our vessels and support those who are in prerequisite of these funds. There are multiple meme coins out there in this world of crypto, which were created as a joke or these were just the scams from the very start. Our notion is to benefit our holders to create large revenues and a portion of these revenue streams will be used to save the kids to fall into the dump of analphabetism due to absence of resources.

## 2) The Problem:

- Every year, over [1.2 million](#) students drop out of high school in the United States alone. That's a student every 26 seconds – or 7,000 a day. About **25% of high school freshmen fail** to graduate from high school on time.
- [About 25%](#) of high school freshmen fail to graduate from high school on time.
- [The U.S.](#), which had some of the highest graduation rates of any developed country, now ranks 22nd out of 27 developed countries.
- According to the U.S. Census Bureau, approximately 20 percent of children in the United States lived in poverty. It means that nearly one in five children were part of a family — composed of two adults and two children — that had a household income of less than \$24,339 a year.
- “The impact of poverty on a child’s academic achievement is significant and starts early,” says Jonah Edelman, PhD, co-founder and chief executive officer of Stand for Children, a nonprofit education advocacy organization. “Young children growing up in poverty face challenges with cognitive and literary ability and [often] begin school both academically and socioeconomically behind their peers from higher-income backgrounds.”
- Furthermore, data show that low-income students are five times more likely to drop out of high school than those who are high-income and 13 times less likely to graduate from high school on time.

### 3) The Solution:

Classroom money is an educational incentivized community, which focuses on providing every eligible candidate with the perks of standard education. Our community is making sure that this help is going to the well-deserving candidate.

In our working system, students will be their arbiters. They will be making their future college fees by their performance. They will earn it by the following:

- GPA.
- Grades.
- Attendance.
- Certain electives.

#### 4) What is CRM Token?

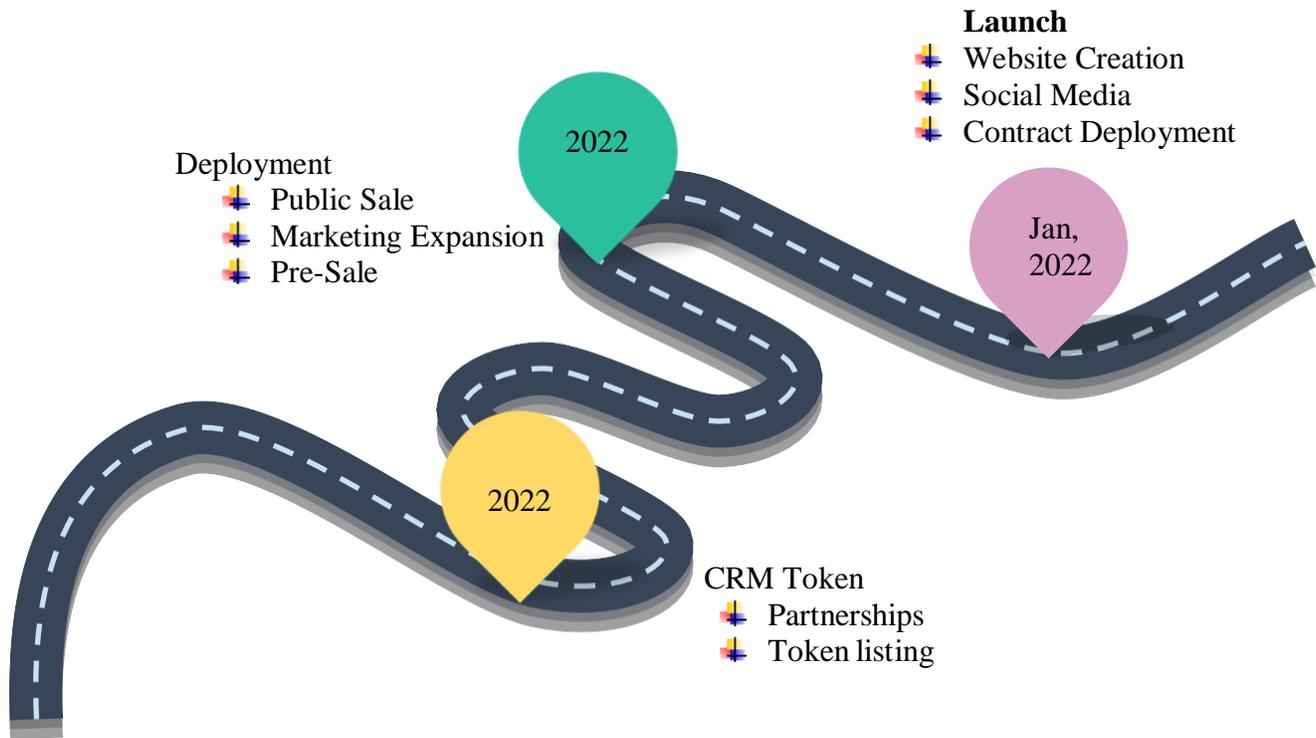

CRM Token is a currency offering a type of funding using cryptocurrency. It is often a form of crowdfunding; The tokens are promoted as future functional units of currency if or when the ICO's funding goal is met and the project successfully launches. This is an **educational** token that allows all children to be rewarded or paid through academic achievements. We intend to provide a galvanized program to every eligible student because we believe education is for all. We aim to provide educational funds to every needy student so that no one remains undergraduate due to a lack of resources. ClassroomMoney creates direct connections between the company and investors. In addition, the interests of both parties are aligned.

#### 5) TOKENOMICS:

In line with our values, we are going to reward everyone for simply participating in this deed of kindness Classroom Money.

- 4% is spread across the wallets of every user, for every transaction. This means that buy and keep a CRM, you will be passively rewarded. The longer you are the member of CRM the more benefits you will get from every transaction.
- 3% will be given to Development and Marketing.
- 5% to liquidity pool.

## 6) Road Map:

## 7) The Call-To-Action:

You can also help us in this mission of providing education to every child of America. You can volunteer to teach in our organization because teaching is the profession that teaches every other discipline. Every little help is welcome. Because the seed you sow today will be a tree of tomorrow, you can help us build the future of this nation by volunteering.

You can support us by sponsoring our community. It will help us in improving and reaching out to the more deserving kids. These collected donations are used to reward the students with good grades. The earned rewards will be used as their future college fees. Your funds will be used for educational field trips, sports, college tuition, and supplies. This incentive program will benefit not only the kids but also their families. Even a little bit of contribution from your side means the world to us because every penny counts.

To volunteer in this prestigious cause, you can register yourself at [Register@Classroommoney.com](mailto:Register@Classroommoney.com). We look forward to hearing from your side.

Follow our newsletter to learn more about peace and building a community connection. Stay up to date on various workshops and events.

We strive to give equal educational opportunities to every US kid and to help them build the future.

#### 8) Binance Smart Chain (BSC):
